

# BALUN/UNUN

## MANUAL

*By GM0OBX*

The boxes are water proof and dont require any further action to waterproof – the choice is yours. As you look at the BALUN / UNUN as in this image above the PIN / BOLT / RING to the right is the centre element / radiating element. The left PIN / BOLT / RING is the ground.

Below are readings with the correct load for each 1: 1 / 9:1 / 4:1

**DO NOT EXCEED THE POWER LIMIT**
